National Early Literacy Consultant

“*Come Into My World!* is an impressive instrument for parents searching for inexpensive and innovative activities to introduce children to the world and inspiring investigation....Children need to see that investigating and experiencing the world is best done with inexpensive and everyday materials. This is how we can encourage and inspire the use of imagination for a lifetime.”

PATTY HANNAN
Founder of Play Wisely Developmental Play Program

“*Come Into My World!* is very well written, simple to understand and practical to implement with young children. The original and creative art work is absolutely beautiful. I recommend CIMY to the parents of any child development program.”

“The information [in *Come Into My World!*] is so important to development, easy to understand and actually fun for families. Conscientious families spend so much time and money on educational toys and classes in order to get their children ready for school. I wish more time were spent doing the kinds of activities in your book that build their relationships as well as skills. ”

MONICA OLIVERA HAZELTON
Book Review in The Beacon News, Sun Times News Group

“For *mamis* of young children that are looking for ways to help develop their children’s imagination and stimulate their curiosity, there is nothing like *Come Into My World/Entra a Mi Mundo*. This book is certainly an asset to any family looking for ideas on how to connect with their children and develop their senses of curiosity and exploration. ”

JEANNIE FULBRIGHT
